

IN THE ABSTRACT:

Cancel the present Abstract and add as follows:

5        ~~-An apparatus for determining performance-indicating~~  
         numbers in sports games, particularly in ice hockey,  
         includes a database having sports games box scores stored  
         therein. The database is stored in a tangible electronic  
         media, such as magnetic media, optical media, electronic  
10        media, paper, thermosetting polymers, rubber, metals, or  
         other suitable storage media. Such media includes computer  
         diskettes, magnetic tape, optical disks, random access  
         memory, read only memory, computer punch cards, and other  
         volatile, temporary, and/or permanent memory devices. The  
15        database scores box scores, such as start time, stop time,  
         team 1 goals and time of goals, team 1 goalies A and B goals  
         and power plays, and team 2 goalies A and B goals and power  
         plays. The performance indicating statistics can be  
         electronically displayed after a game or during a game on  
20        the aforesaid tangible media, which may include among  
         others, a video split screen display during the course of a  
         game, a sports arena electronic scoreboard, or on any other  
         video display, such as a global communications network or a  
         television show.--
